

Magnífico material para formar frases simples tipo: él/ella + persona que realiza la acción+ acción. Es una maravillosa conjugación de material realizado por Belinda Haro; con pictogramas de Arassac y las imágenes de las situaciones de www.soyvisual.org . Belinda es autora del blog <http://siembraestrellas.blogspot.com.es/>. Imprime, plastifica y trabájalo de forma manipulativa ; o bien ,directamente desde el ordenador.

The image displays a set of educational materials for creating simple sentences. On the left, there are two vertical columns of article cards: the top one with a blue border and the letter 'el', and the bottom one with a blue border and the letter 'la'. To the right, there are two rows of pictogram cards. The top row has five cards with green borders, each showing a different person. The bottom row has five cards with red borders, each showing a different action: a person speaking, a person running, a person shouting, and a person reading. Below these materials is a scene of a boy reading a book in bed at night, with a nightstand and a lamp. To the right of the scene are three empty boxes with colored borders: blue, green, and red. A vertical credit line on the right side reads 'Aula TLU-Dubisa - Belinda Haro Castilla'.
